**DPS 360
Technology**

It's all about you...

Your safety

Most Dealer Specials tend to feature a few rather ill-conceived and often insignificant little extras, our SE models however are different, very different. To begin with, our focus is very much on the safety of you and your loved ones. That's why we were the first dealer in the UK to uniquely introduce ESP (Electronic Stabilization Programme) on to all our SE range. This year we have done it again, we are the first dealer in the UK to fit as standard a DPS 360, a combined Thatcham category 1 alarm, reversing camera and a 360° cctv monitoring system that records traffic, parking and storage incidents - **It's safe!**

Your comfort

Having helped towards your safe arrival, with the added comfort of cab air conditioning, our next aim is to ensure that your stay is luxurious and relaxing. With this in mind, we have loaded our SE models with specification that is second to none. In addition to the standard specification, a few of the other extra features we add include a Heki rooflight, a solar panel, a microwave oven, dual fuel hob, cab blinds, a walnut effect dash kit and a Panoramic rooflight. These additions will not only add to the comfort and enjoyment of your new motorhome, but they should also significantly enhance the residual value too - **It's comfortable!**

Your peace of mind

So now you are all relaxed, our last aim is to keep you this way. With this in mind, we have added a few often overlooked, but nevertheless very important features that we hope will give you lasting peace of mind. For example, our exclusive 'Naomi Latte' fabric is the wipe clean type from Aquaclean Fabrics, this will give you absolute peace of mind from spills. There's also a fire blanket, drivers safety pack and loads more and as if that is not enough, then you even get a 4th & 5th year addition to your manufacturer's warranty. Another first for us and another reason to choose the Musketeer range - **It's peace of mind!**

And there's more

Of course the list of extra equipment that is included on our Special Editions is something to behold and something we are rightly very proud of. But it isn't all that these beautiful motorhomes are about, because believe it or not there is more. And this more comes in the form of our very own exclusive and eye catching exterior graphics, our exclusive opulent looking fabrics with their matching carpets and curtains, our superb looking Alloy Wheels and of course our renowned white Gold Cab - **It's beautiful too!**

honest  **friendly**  **reliable**

It's all about us...

Award winning dealers Hey, you could buy the best vehicle in the world, but if the dealer you buy it from is not up to standard, then the whole deal just won't stack up. Here at RBM, we have an enviable reputation for our service, that's before, during and after the sale. And you don't have to take our word for it either, just look at the raft of awards we have won year in year out, including one for 'Dealer of the Year 2013' as the best supplying dealer in the UK for New Motorhomes!

Accessories We stock 1000's of spares and accessories. From everyday camping essentials, to the smaller parts needed to maintain your vehicle and keep you out there motorhoming. And in the unlikely event that we haven't got what you want in stock and it is still available, then we'll order it for you, simple!

Sales Our small but perfectly formed and friendly sales team has over 60 years experience between them in the leisure business and we use the skills and knowledge we have learned to ensure we give the best advice and information we can, whether to a novice first timer or to a seasoned professional.

Service Ah, sadly the acid test where many dealers fall down. Well our motto to service is simple and it goes something like this .. 'We may not always have the answer, but we'll find it, we may not always have the time, but we'll make it.' And generally speaking, this allows us always to make the grade.

D'Artagnan

A neat attractive and nifty low profile motorhome made for two. The end kitchen and corner washroom allow for a surprisingly spacious lounge that converts easily into a large double bed. At just 5.7m (18ft 9') its a great choice compact vehicle for fabulous holidays or just to get around town in.

Athos

A mid-sized luxury 2 berth or a comfortable 4 berth, the choice is yours. A cozy fixed bed with loads of room beneath ensures comfort and convenience and the roomy front lounge, which hides away the ingenious fold away belted travelling seats, completes the picture.

Porthos

A mid-sized lavish end washroom 2 berth motorhome that really does give you all the on board comforts of home. A generous end washroom with separate toilet, shower and large changing area, compliments the roomy lounge and well-appointed kitchen. This is luxury motorhoming at its best!

Aramis ll

A family sized best seller that does all you could ask for of a motorhome of this size and budget and more besides. With six travelling seats and berths, this versatile layout is a proven dream maker. In our view there is no better value family motorhome on the market.
